Common features

- Preparation in mathematics (linear algebra, discrete mathematics, mathematical analysis, probability theory and mathematical statistics).
- Understanding the basic principles of OOP.
- Knowledge in algorithms and structure data.

Python

- Thorough knowledge of the standard library, STL containers, and algorithms.
- Knowledge of standard scripts.
- Experience with the language for about six months.

EDUCATION

Gisma University of Applied Sciences
Bachelor's Degree with Foundation year.

2024-2028

PROJECTS

Cafe Management System

2026

A simple cafe management program I built with Python. It lets you manage the menu, customers and orders from the terminal.

Social Media Database System Project

2026

A database for a social media app. It keeps track of users, posts, comments, and likes. The database shows how tables can be connected and how data can be managed with MySQL.
